

How does the HelloPorta Teams Doorbell work?

Touching a button on the HelloPorta touchscreen will make a video-call to the configured User or group. The called Teams user can speak to the person at the door (voice) and see him/her (video). With an Instant Message (chat) command the door can be opened (this needs the optional Dooropener IP Relay hardware).

HD HelloPorta Indoor works with Skype for Business and Microsoft Teams.

Highlights:

- Open door remotely via Instant Message from the Skype for Business / Teams client
- Safe enclosure that is fit for a visitor area
- Skype for Business / Teams integrated voice AND video
- One or multiple bell-buttons (easy change in setup file)
- Video-call on PC, Mac or smartphone Skype for Business/Teams clients
- No gateway or server-software needed.
