

OUTDOOR VIDEO DOORBELL ·
MICROSOFT TEAMS

A modern, secure welcome for every visitor

A rugged 7" outdoor touchscreen intercom that brings every visitor straight into Microsoft Teams — with a branded welcome and remote entry control.

Ideal for offices, multi-tenant buildings and logistics sites.

Key benefits

1

Direct Teams integration

Works natively with Microsoft Teams — no extra software to install.

2

Remote door unlock

Release the door straight from a Teams call for faster, safer entry.

3

Custom branding & routing

Tailor branding, buttons and call destinations for a professional welcome.

4

PIN or RFID access

Flexible, secure entry with PIN codes or RFID cards.

5

Department sub-menus

Sub-directory menus keep multi-team and multi-brand sites organized.

6

Zero-server deployment

No gateway or on-site server software required — quick to roll out.

PRODUCT DATASHEET

- Anti-glare tempered glass
- Operating range -30°C to +60°C

Dimensions & weight

- 267 × 131 × 41 mm
- 1.6 kg
- Surface / flush mount ready

HOW IT WORKS

Connected to Microsoft Teams

1

Visitor calls

A visitor taps Reception or Deliveries on the 7" panel to start a call.

2

Secure cloud relay

The call is routed through the Microsoft cloud — encrypted, with no on-site server.

3

Staff answer in Teams

The call rings on staff Teams apps and devices, wherever they are.

4

Remote unlock

Staff greet the visitor and release the door directly from the Teams.

**Licensing**

Requires one Teams account per device: a Teams License or Teams Shared Device License.
